

LOOK Safeguarding Framework® Training

Seeing the whole picture. Strengthening the system. | Awareness - Practitioner development - Implementation support

Turn isolated concerns into a clearer understanding of cumulative risk.

LOOK is a structured, trauma-informed framework that supports professional curiosity, whole-person analysis and proportionate multi-agency safeguarding responses.

The four LOOK domains

Living Circumstances

Home, relationships and daily life

Obstacles and Barriers

Access, engagement and inequality

Ongoing Risks and Escalation

Patterns, change and cumulative harm

Keeping the Person in View

Voice, strengths, safety and outcomes

Training and support

- Awareness sessions
An accessible introduction for teams and leaders.
- Practitioner workshops
Applied learning using case discussion and reflection.
- Facilitator development
Support to embed consistent use across services.
- Pilot and implementation support
Planning, evaluation, audit and governance.

What participants gain

- Recognise patterns and cumulative harm earlier
- Strengthen professional curiosity and analysis
- Keep the person's voice and lived experience central
- Improve multi-agency information sharing and escalation
- Use learning from SARs, DHRs and DARDRs in practice

Designed for safeguarding across the system

Adult and children's services • Mental health • NHS and healthcare • Local authorities • Housing • Police • Prisons and probation • Voluntary and community organisations

Online or in person | Available across England
